PROFILE

I build frontend and backend (APIs), data analysis with AI, integrations, automations, and infrastructure. I work where product meets operations: internal systems, dashboards, bots, and process improvements people actually use.

PROFESSIONAL EXPERIENCE

Infrastructure & Senior Developer

Feb 2025 — Present

Farmácias Estrela

- Backend APIs, internal web systems, integrations, and automations for network operations.
- Data analysis with AI, dashboards, bots, central auth, monitoring, and IT tooling.
- Infrastructure organization and process improvement for day-to-day use.

Analyst / Support — Data Center

Nov 2023 — Feb 2025

Unioeste

- Data center ops: uptime, internal support, and security.
- Networking, Active Directory, and institutional environment optimization.

Social Media

Jan 2023 — Nov 2023

EletroLimp

- Social ops, posting methodology, boosting tools, and marketing CRM.
- Visual components for website and system.

UI Freelancer

Sep 2022 — Aug 2023

Workana

- UI/UX freelancing, copy, and posts; Figma prototyping for clients.
